New Chrysanthemums for Your Garden

THE PLANTS WE SEND YOU are well rooted divisions of field grown clumps. Having been grown out of doors they do not have the lush, tender growth of the greenhouse but are strong and sturdy, already adjusted to the conditions of your garden.

WHEN TO PLANT—Spring divisions will be available from April 15 to June 1. We prefer to ship plants in May as they are larger then and in better growing condition. We will make certain that the plants reach you in plenty of time to develop to full maturity and loveliness.

PRICES—The prices given here are for spring divisions only. We send all chrysanthemum plants **POSTPAID**.

PACKING—Our plants are well packed to carry long distances. We will enclose with your shipment full instructions on the care of the plants.

ORDER EARLY—We have only a limited supply of some of the new varieties of chrysanthemums. So order early to be sure of getting the ones you want.

Blooming clumps, balled and wrapped can be had during September and October by local customers. They will be priced in the field.

NEW ENGLISH CHRYSANTHEMUMS

Try some of these new English chrysanthemums. They are early blooming and hardy. You will be amazed at their size and unusual forms and colors. Among them you will find five or six inch blossoms, even without disbudding. You will find fully incurved flowers that remind you of big football mums as well as those with reflexed petals. There are many delightful colors. The plants vary in size and habits of growth from quite low to tall and exhibit many types of foliage.

Order some of these English Mums and enjoy a new experience in your fall garden.

ENGLISH CHRYSANTHEMUMS

| | |
|--|-------------|

These are summer blooming.

Bronze Cushion

Red Cushion

Pink Cushion

White Cushion

Any of the above cushions Each \$.25

YELLOW CUSHION—Clear pure yellow, with no bronze tint. Each .35

CHRYSANTHEMUMS FOR HEDGES

These varieties make splendid low hedges because of their even habit of growth and their refined deep green foliage. At blooming time the plants are hidden by the brilliant flowers. Plant about a foot apart along a drive, between lawn and garden, across a terrace or any place where a low hedge is desired and you will be pleased with the results.

HEDGE VARIETIES

AUTUMN LIGHTS—Brilliant orange-bronze flowers. About 2-feet high. Late Sept.

RED FLARE—Dark red pompon. 2 to 2½ feet high. Oct.

Prices: 12 for \$2.50. 25 for \$4.50. 50 for \$8.50

SOME UNUSUAL PERENNIALS

ASTER, SURVIVOR—Finest hardy pink aster. Blooms in Sept. with flowers of a bright rose pink color. Tall, strong growing plant. Each \$.60

ASTER, STAR OF WARTBURG—A beautiful spring-flowering aster. Great numbers of lilac-blue flowers with orange centers on one foot stems. A very fine perennial. Each .50

ANCHUSA, DWARF—12-inch. Suitable for the front of borders or rock gardens. Lovely blue flowers like forget-me-nots in April and May. Each .50

CAMPANULA, TELHAM BEAUTY—Large bell-like flowers of clear blue. Will bloom a second time on shorter stems if cut back. Each .50

COLUMBINE, CRIMSON STAR—Very large flowers with crimson sepals and spurs and white petals. New and different. A strong, free-blooming plant. Each .50

DAISY, MOUNT SHASTA—Pure white, fully double flowers with a high crested center. A fine healthy plant that blooms from spring until frost. Each .75

GOLDENROD, GOLDEN WINGS—A fine importation from England. Column-like plants, 6 or 7 feet tall are topped by long yellow plumes in Aug. and Sept. It is very spectacular when in bloom and not to be compared with ordinary goldenrod. Each .50

From Illinois—"I saw some English Chrysanthemums raised and sold by you. I want to order some for next spring."

| | | |
|--|------|------|
| HEMEROCALLIS, HYPERION —Undoubtedly the finest yellow day-lily yet. Makes large clumps with refined foliage and the flowers are great waxy yellow lilies of heavy substance. | Each | 1.00 |
| MONARDA, SALMON QUEEN —Flowers are a soft shade of clear salmon pink. The foliage has a delightful fragrance. | Each | .50 |
| SCABIOSA, BLUE BONNET —The best Scabiosa. The flowers are a lovely clear shade of blue. Our Blue Bonnet was in bloom over two months last summer. Each | | .50 |

IRIS FROM COLORADO

Our dry Colorado summers are ideal for maturing iris rhizomes properly. We have no iris diseases and have never seen a borer. Our irises made a fine growth last season and we are proud of the husky, full-of-life rhizomes we have to send you.

Shipments of iris are made from July 15 to Oct. 1. We recommend the earlier planting. We do not ship iris in the spring.

Order early as we have a limited supply of some varieties.
